2009 RISK INNOVATOR & RESPONSIBILITY LEADER WINNERS

The *Risk & Insurance*® Risk Innovator Award recognizes winners in 14 different industries who have, in the past year, demonstrated innovation and excellence in risk management. These key individuals see risk differently and have resolved risk-related problems in a unique or innovative way. They view risk not only as a threat, but also as an opportunity for their organizations.

Of these winners, nine were selected to receive an additional designation: Responsibility Leader, sponsored by Liberty Mutual. The Responsibility Leaders were chosen based on the fact that they developed a unique and practical risk solution that benefited not only the organization but the employees and/or community, and were committed to doing the right thing over the easy thing to overcome obstacles. A separate panel of judges reviewed the applications of the Risk Innovator winners to identify eligible candidates. The editors of *Risk & Insurance*® then select the nine Responsibility Leader winners.

Construction/Real Estate**Jeffrey Alpaugh**
